# BOROUGH of SWINTON and PENDLEBURY .

Public Health Department,  
Town Hall,  
Swinton.

To The Worshipful The Mayor, Aldermen and Councillors  
of the Borough of Swinton and Pendlebury.

Mr. Mayor, Ladies and Gentlemen,

I have the honour to present to you my report on the health of the Borough during the year 1942.

This report has been compiled in accordance with the Ministry of Health Circulars 2604 dated 24th March, 1942 and 2773 dated 10th March, 1943. The statistics have been compiled in the Department, there being no figures available from the Registrar General.

The birth-rate per 1000 was 14.5 as compared with 13.5 in the previous year.

The death-rate for the year was 10.9 as compared with 12.8 in 1941. The number of deaths was 423.

Maternity & Child Welfare Department. The work of the Maternity and Child Welfare Department has maintained its popularity during the year. The appointment of Dr. Frances McKane as part-time Assistant Medical Officer to succeed Dr. Sybil Martyn-Johns who resigned to take up duty as full-time Officer to another Authority has been a popular one with the mothers at the clinics. The volume of work undertaken in the Ante-natal Clinics has increased considerably, the attendances of expectant mothers being 3272 as compared with 2533 in the previous year. The attendances at the Infant Welfare Centres have also increased during the year.

In spite of the heavy demands made upon the time of the Voluntary Helpers due to the war, they have not failed to give invaluable assistance at the Infant Welfare Centres during the past year.

War-time Nurseries. This Authority has now two war-time nurseries functioning in the Borough and it must be a source of satisfaction to the mothers to know that their children can be well cared for at the nurseries while they are engaged on work of national importance.

Diphtheria Immunisation. During the latter part of the year a campaign was carried on to secure the immunisation of children. Results of this campaign will be found on page 30.

Scabies. To meet the demand where home conditions do not permit proper bathing facilities a slipper bath has been installed at an outbuilding rear of Victoria House where patients can receive treatment.

Civil Defence. Civil Defence duties still continue to take up a good deal of time in the department.

I take this opportunity of thanking all the members of the staff of the Health Department for their excellent work during the year, and to express my appreciation of their co-operation.

In conclusion, I wish to thank the Chairman and Members of the various Committees with which the department is connected for their confidence and encouragement.

I have the honour to be,

Your obedient Servant,

A. E. WALL,  
Medical Officer of Health.

## GENERAL PROVISION of HEALTH SERVICES

### Hospitals:

Urgent medical and surgical cases are sent to hospitals in adjoining districts, as well as to Abbotsfield Hospital provided by the Lancashire County Council.

Provision for the isolation and nursing of infectious diseases is made at Astley Sanatorium by the Leigh Joint Hospital Board, of which the Swinton and Pendlebury Corporation is a constituent Authority.

Maternity cases requiring inpatient treatment are sent to Hope Hospital, Salford, and St. Mary's Hospital, Manchester.

### Laboratory Facilities:

Specimens for Bacteriological Diagnosis are sent to the Laboratory at Astley Sanatorium, as well as to the Public Health Laboratory, Manchester.

### Ambulance Facilities:

The call on the Borough Ambulance Service still continues to increase, and a summary of Journeys made by the Ambulance to the various Hospitals will be found in Table III of this report.

### Nursing in the Home:

There have been no changes in the arrangements described in my report for 1938.

### Clinics and Treatment Centres:

There have been no changes in the Clinic and Treatment Centres during the year.

### Maternity and Child Welfare:

These services were fully described in my report for 1938. There have been no changes other than those described above under the headings of Clinics and Hospitals.

Health Visiting and attendances at the Infant Welfare Centres and Special Clinics appear in Tables XVII to XX.

## BOROUGH OF SWINTON AND PENDLEBURY.

### SANITARY CIRCUMSTANCES.

These have been enumerated in detail in previous reports, and there were no outstanding developments during the year 1941.

Particulars of the sanitary accommodation in the district, house inspection, and the general work of the Sanitary Inspectors are given in Table IV - VIII.

### HOUSING.

There has been very little accomplished in the Council's Slum Clearance Scheme during the year, owing to War conditions. Details up to the end of December are given in Tables IX and X.

### INSPECTION and SUPERVISION of FOOD.

Particulars of the samples taken and of the work of the Sanitary Inspectors in connection with food supplies will be found in Tables XI - XIII.

### INFECTIOUS and OTHER DISEASES.

The number of notifications of infectious diseases notified during the year 1942, was 1049, as compared with 599 in 1941. A Statistical Summary of Cases Notified appears in Table XIV.

Notifications of Diphtheria increased from 77 in 1941 to 82 in 1942, while Scarlet Fever increased from 77 to 158.

A Statistical Summary of Cases Notified under the Tuberculosis Regulations appears in Tables XV and XVI.

# BOROUGH OF SWINTON AND PENDLEBURY

Public Health Department,  
Town Hall,  
Swinton.

24th April, 1943.

To His Worship the Mayor, Aldermen, and  
Councillors of the Borough of Swinton & Pendlebury.

Mr. Mayor, Ladies and Gentlemen,

I wish to present my report on the Cleansing work in the Borough during the year 1942.

All refuse is disposed of by "Controlled Tipping", the Nelson Fold site being used throughout the year.

At the time of writing this report, Slack Brook Course is being culverted for a distance of roughly 103 linear yards. When this work is completed accommodation will be provided for several years "tipping". The Health Committee has accepted liability for the cost of this length of culvert.

Notwithstanding the fact that labour has been a great difficulty during 1942, I have been able to maintain nine or ten days service to all houses within the Borough.

An organised Pig Food collection by communal bins placed throughout the District was commenced on June 8th, 1942. From that date until the end of December, 186 tons were collected and sold for £308.

The amount of Salvage, etc. collected is shown in Table XXIII, the receipts being £2,286 which is almost double the previous year's figures.

In conclusion, I wish to thank the Chairman and Members of the Health Committee, and all the men of the outdoor staff engaged on cleansing work, for their assistance during the year.

I am, Ladies and Gentlemen,  
Your obedient Servant,

P.E. BERRY,  
Chief Sanitary Inspector.
